Dear Ultimate Wealth Report Reader:

Please find below a special message from our sponsoring advertiser, Arista Theme Ltd. They have important information to share with you. Thank you.

The following information is not endorsed by Newsmax, Moneynews, or the writers of the Ultimate Wealth Report, nor have we researched the investment that is described below. While investing in over-the-counter stocks can be rewarding, they typically come with a lot of risk. Please conduct your own due diligence and invest at your own discretion.

Moneynews.com

**Bakken Shale could hold 458 %more recoverable oil than previously estimated!**

**Soon-To-Be-Released, New USGS Report Could Signal...**

# Round 2

## of explosive Bakken Shale profits!

If you missed out on these huge profits during round 1 of the Bakken revolution:

- 473% gain - Marathon Oil
- 538% gain -- Continental Resources
- 560% gain -- Statoil ASA
- 766% gain -- Whiting Petroleum
- 672% gain -- Hess
- 1,611% gain -- EOG Resources
- 5,557% gain -- Kodiak Oil & Gas

Here's a second, and even better opportunity:

Buy shares of Norstra Energy (NORX) now before new the estimates from the U.S Geological Survey and you could...

**Turn \$10,000 into \$120 MILLION  
as Norstra drills wells on its overlooked  
and "underpriced" Bakken Resource!**

Seismic data indicates Norstra Energy could be sitting on top of as much as...

# 8.5 billion barrels of oil!

New, soon-to-be-released USGS Report could

**estimate the vast Bakken Shale holds as much as  
100 billion barrels of original oil in place.**

With a 99.6% probability of drilling success and an estimated 8.5 billion barrels of original oil in place, Norstra Energy's overlooked and underpriced play in Montana's Sun River Bakken could make you rich!

Fellow Investor:

It's common knowledge among oil industry higher-ups that the U.S. Geological Survey (USGS) is putting the final touches on its brand new, two-year, intensive geological study to determine more-accurately how much recoverable oil is in the vast Bakken Shale.

And, although the USGS has not yet confirmed it, geologists at major, big-oil companies are betting that, when released, the new estimates will indicate there may be as much 458% more recoverable oil there than previously reported by the USGS in its last 2008 survey!

**You need to act now before the government releases new, much higher estimates!**

Because, just as its previous 2008 survey unleashed an investor rush that quadrupled the trading prices of many Bakken-related oil stocks, so could a new 458% increase ignite a second round of buying.

Round-one investors, who were quick to jump on most any of the Bakken's exploratory drillers, could have made huge profits of 473%. . . 766%. . . 1,611% and even 5,557% as companies like Marathon, Hess and Kodiak began drilling.

That was then. And the many of the initial Bakken investors are very, very rich.

But now, new estimates by credible geologists with some of the majors put the Bakken's total oil in place much higher, conceivably as much as 100 billion of what's referred to as original oil in place, or 24 billion barrels of recoverable oil (458% greater than the USGS's 2008 estimate).

It's expected that the new USGS Survey will confirm this astonishing increase in recoverable Bakken oil reserves. And, I don't see how it can possibly not ignite a repeat of the round one buying frenzy.

But, for the maximum bang for your buck when that USGS report hits the street, you don't want to invest now in the oil stocks that already took a ride on the 2008 Report.

***I've got a brand new Bakken play that, to me, looks exactly like Kodiak Oil & Gas before that last USGS Report sent Kodiak soaring by a stunning 5,557%!***

**Like Investing In Little-Known Kodiak  
Before It Began Its 5,557% Tear!**

If you're an energy investor, you may know that most of those early, first-to-the Bakken, super-hot energy stocks have understandably cooled as fat and happy early investors have taken \$-billions in profits off the table.

While many of those already-profitable, Bakken-related stocks will undoubtedly get a huge boost from a new USGS Report, none is likely to give you a repeat of the kind of explosive

profits seen in the early days of the Bakken Shale revolution.

## Round 2 of the Bakken Revolution:

But, what if...

- You could turn back the calendar to the days when stocks of Bakken Jr.s, like Kodiak Oil & Gas were trading for pennies? What if you could invest now in the Bakken's next 5,557% super-stock?
- What if there is a "whole new" Bakken within the already developing oil fields of the vast Bakken shale that is just now attracting attention?
- And what if there was a brand new, still-undiscovered exploration company, headed by a field geologist recognized as one of America's most experienced Bakken experts?
- What if that company had just negotiated the mineral rights to 10,097 of prime Bakken acreage and **somehow managed to pay less than 4% of what some of the majors have paid per acre?**
- And. . .best of all. . .what if you could invest in that company at less than 50-cents a share. What if the stock of this Bakken newcomer proves true to the pattern of so many past Bakken success stories?

Well that, in a nutshell, is what this is all about!

**The company is Norstra Energy Inc. (NORX).**

Read on and you will discover the fascinating story of round 2 of the Bakken revolution...

- How this newly-launched explorer was able to snap up 10,097 acres of prime Bakken real estate at just \$1,500 an acre when the majors have been paying as much as \$40,000, plus...
- Why geologists are saying NORX has a 99% certainty its new wells will be productive and profitable...
- And why management is so certain it can complete a productive well at a cost of only about \$6 million compared to the \$200 million some of the majors have spent at other locations.

Follow the link below and you'll find all the clear and convincing details as to why I am predicting this 50-cent stock, NORX, could be headed for \$2.50-\$3.00 in the very near future, and why 18-24 months down the road, you could see NORX trading for as much as \$25-\$27.50 a share.

My name is Eric Dany. I'm editor and publisher of *Eric Dany's Stock Prospector, Main Street*

Research. I'll tell you more about my service in a moment, but by way of credibility, using Main Street Research, instead of Wall Street's, some of my readers could have racked up some absolutely spectacular profits including:

**Suncor Energy up 178% - profits at 360% and 500 %**

**Holly Frontier profits of 135%**

**Darling Int'l up 320%**

**Marathon Petroleum profits at 88% & 117%**

**Nova Gold profits at 100% & 135%**

I checked the numbers three times to make sure they were right. And it's true...

Clients who bought the stocks recommended our Annual Winning Stock special reports have trounced the market since 2004.

Our annual Winning Stocks Report features eight companies for the year ahead and over the last nine years our picks have trounced the market averages by more than two-to-one. Our Winning Stocks have returned an average of 18.8% annually versus 7.3% for the broad market.

Even as the market hits new all-time highs, there's lots of money still sitting on the sidelines, poised to pour into the market and it is likely you will see great stocks explode in bursts - racking up 80% of their next 12 month gains...in 12 weeks or less.

Now I'm predicting that NORX could be my best call ever! If you move on Norstra Energy Corp right now, you could pocket profits like you've never made from any stock buy to date! If you act before one of the majors makes a takeover move, this 50-cent stock could make you a fortune as I believe the company's estimated 8.5 billion barrels of oil in place could easily fetch \$25 a share in a takeover!

That works out to a gain of 5,000%! It means, if I'm right, \$10,000 invested in NORX now, while you can still get it for around 50-cents, would explode in value to a cool half a million dollars!

Don't wait! As you'll see when you read on, I believe one of the majors may be readying a takeover offer that, the minute it leaks out, could send this stock flying!

For complete details:

**CLICK HERE**

**P.S.** It's an astonishing fact that 99% of all wells drilled to date in the Bakken have been successful! Sophisticated seismic data indicate this Southern River Bakken Prospect should be no different!

**ERIC DANY'S STOCK PROSPECTOR IMPORTANT NOTICE AND DISCLAIMER:** This is a paid advertisement by Eric Dany and/or Eric Dany's Stock Prospector (collectively, "EDSP"). EDSP has received \$10,000 from Full Service Media, LLC in compensation for this advertisement to enhance public awareness of Norstra Energy, Inc. (hereafter "NORX"). EDSP also expects to receive new subscriber revenue, the amount which is unknown at this time, as a result of this advertising effort. EDSP does not perform any due diligence on the stocks and companies discussed herein. EDSP relies on generally available public information and representations made by NORX. EDSP does not purport to provide an analysis of any company's financial position, operations, or prospects and this is not to be construed as a recommendation by EDSP, or an offer to sell or solicitation to buy or sell any security. NORX, the company featured in this issue, appears as paid advertising. Although the information contained in this advertisement is believed to be reliable, EDSP makes no warranties as to the accuracy of any of the content herein and accepts no liability for how readers may choose to utilize it. Readers should perform their own due-diligence before investing in any security including consulting with a qualified investment advisor or analyst. Readers should independently verify all statements made in this advertisement and perform extensive due-diligence on this or any other advertised company. Eric Dany and EDSP nor any of their principals, officers, directors, partners, agents, or affiliates are not, nor do we represent ourselves to be, registered investment advisors, brokers, or dealers in securities. EDSP is not offering securities for sale. An offer to buy or sell can be made only with accompanying disclosure documents and only in the states and provinces for which they are approved. EDSP does not offer or sell securities. More information can be received from NORX's website at [www.norstraenergy.com](http://www.norstraenergy.com). Further, specific financial information, filings and disclosures as well as general investor information about publicly listed companies and other investor resources can be found at the Securities and Exchange Commission website at [www.sec.gov](http://www.sec.gov) and [www.nasdaq.com](http://www.nasdaq.com). Any investment should be made only after consulting with a qualified investment advisor and only after reviewing the financial statements and other pertinent corporate information about the company. Many states have established rules requiring the approval of a security by a state security administrator. Check with [www.nasaa.org](http://www.nasaa.org) or call your state security administrator to determine whether a particular security is licensed for sale in your state. This advertisement is not intended for readers in any jurisdiction where not permissible under local regulations and investors in those jurisdictions should disregard it.
